LOGIN PAGE <https://chetan769825.github.io/login-page/>

A page Using HTML , CSS , JAVASCRIPT where user can use this for there security.

- It is a set of credentials used to authenticate a user. This is bit challenging for me to work on it
- Authorized users can make there own username and passwords for further use

NETFLIX CLONE <https://chetan769825.github.io/Netflix-clone/>

It was an project that I work to get an detailed explanation of working of HTML and CSS.

- In this I learn how to apply different fonts and colour by using a set of codes.
- It is an exact copy of Netflix officially approved website.
